

Phoenix Civic Plaza's Refrigerant Recovered by Rapid Recovery

Phoenix, Arizona – June 2006 – Rapid Recovery, an Arizona based refrigerant recovery company, recently completed the refrigerant abatement on five chillers and more than a dozen smaller air conditioners. The job was completed for BCS Enterprises, the demolition contractor for the project.

The project is part of the \$600 million expansion and renaming of the facility. Once the expansion project is complete, the newly named Phoenix Convention Center will have tripled in size and will offer nearly 900,000 square feet of rentable space and more than 2 million square feet total.

Casey Johansen of BCS Enterprises phoned Rapid Recovery for all of the refrigerant related equipment. The basement held two large R-11 chillers and three large R-134a chillers. Rapid Recovery recovered the refrigerant and provided all of the required EPA documentation for the refrigerant recovered. Les Rhynard of Rapid Recovery said, "The power had already been shut off prior to our portion of the job starting. This always presents additional potential problems to be solved. However, the job went very well with the chillers being recovered in just two days and the remaining units, which were spread throughout the facility, being recovered on the third day."

Rapid Recovery offers refrigerant recovery and abatement nationwide through its franchise network. Their customer base includes refrigeration and air conditioning contractors; refrigeration wholesales distributors; demolition contractors; DOD; landfill administrators and in house service departments for companies like Kmart, Raytheon, Wrigley & General Dynamics. They provide on site refrigerant recovery, recovery cylinder, refrigerant disposal and documentation services. Rapid Recovery can be contacted by phone toll free at 877.372.7732, by email at info@raprec.com or via their web site at www.raprec.com.
