

## **Rapid Recovery® Completes Refrigerant Recovery for CST Environmental at Consolidated Film Industries in Hollywood, Ca.**

Hollywood, Ca. – February, 2004 – Rapid Recovery, an Orange County, Ca. based refrigerant recovery company, recently completed a refrigerant recovery project for CST Environmental encompassing the Consolidated Film Industries site at 959 Seward Rd., Hollywood, Ca.

CST Environmental contacted Rapid Recovery for the refrigerant abatement. The facility had 4 separate multi-story buildings with basements. Unaware of where or how many Air Conditioning units were on site Rapid Recovery performed the “Discover and Recover” routine on the facility. Using flashlights every room on every floor was checked for any and all appliances containing refrigerant.

Les Rhynard of Rapid Recovery said “CST Environmental had not been provided with information in regard to how many appliances are on site that need to be recovered or where they are located. In addition there are systems that most people wouldn’t know contained refrigerant. This is where Rapid Recovery brings a lot of value to the table for our customers. We are brought on site to ensure everything is recovered and documented. We also keep a back up set of documentation that is only a phone call away.”

In the end Rapid Recovery recovered a total of 49 appliance circuits containing refrigerant including chillers, drinking fountains, air dryers and air conditioning units. The total time at the site was two days.

Rapid Recovery offers refrigerant recovery and abatement nationwide through its franchise network. Their customer base includes refrigeration and air conditioning contractors; refrigeration wholesales distributors, demolition contractors, DOD, landfill administrators and in house service departments for companies like Kmart and Big Bear. They provide on site refrigerant recovery, recovery cylinder, refrigerant disposal and documentation services. Rapid Recovery can be contacted by phone toll free at 877.372.7732, by email at [info@raprec.com](mailto:info@raprec.com) or via their web site at [www.raprec.com](http://www.raprec.com).
