

Rapid Recovery® Completes Refrigerant Recovery at Great Lakes Naval Station

Chicago, Illinois – September 28, 2004 – Rapid Recovery, an Arizona based refrigerant recovery company, recently completed a refrigerant recovery project at the Great Lakes Naval Station in North Chicago, IL.

National Wrecking Company hired Rapid Recovery to recover approximately 20 air conditioning units at the site. Due to time constraints at the job the units were pulled and set aside to be recovered after the building was razed. Rapid Recovery provided all of the make, model & serial numbers plus type of refrigerant and number of pounds. All units were affixed with dated and numbered “Refrigerant Recovered” stickers to allow for accurate documentation and tracking..

Paul Rhynard of Rapid Recovery said, “That is what we do. We provide a time and money saving service for our customers; plus provide them all of the necessary documentation to eliminate any liability exposure related to refrigerants.”

Rapid Recovery offers refrigerant recovery and abatement nationwide through its franchise network. Their customer base includes refrigeration and air conditioning contractors; refrigeration wholesale distributors, demolition contractors, DOD, landfill administrators and in house service departments for companies like Kmart and Big Bear. They provide job-site refrigerant recovery, refrigerant removal from recovery cylinders, refrigerant disposal and documentation services. Rapid Recovery can be contacted by phone toll free at 877.372.7732, by email at info@raprec.com or via their web site at www.raprec.com.
