

## **Rapid Recovery Completes Refrigerant Recovery in Wassau, WI**

Chicago, Illinois – September 5, 2006 – Rapid Recovery of Chicago, a Chicago based refrigerant recovery company, recently completed recoveries at a Menard's, Kmart, Burger King and several other buildings, including a small office complex in Wassau, Wisconsin.

The job for JPS (James Peterson Sons, Inc., Medford, Wisconsin) was completed in just 2 days with over 60 refrigerated appliances of various sizes being recovered. The project was part of a freeway expansion project which required the existing buildings to be removed. Rapid Recovery was recommended to JPS by Champion Environmental, who was responsible for the demolition portion of the project, and has utilized Rapid Recovery on several other projects.

Rapid Recovery received a call from JPS on August 9 and did a job walk the following day. JPS asked Rapid Recovery to start the refrigerant abatement on August 15. The time requirement for getting the refrigerant removed was short. Soft demolition would begin on August 14 with the hard demolition to begin on August 21. Rapid Recovery was given a deadline to have all the refrigerant abatement done by the end of the day on August 18.

The refrigerant abatement was completed August 16, two days ahead of schedule. "Once these projects get moving, there isn't any extra time. Our reputation for being able to arrive on short notice and to get the work done safely and quickly is the why we have been so successful." said Paul Rhynard. In addition to the abatement of the refrigerant, Rapid Recovery also supplied the necessary EPA paperwork for the project.

Rapid Recovery offers refrigerant recovery and abatement nationwide through its franchise network. Their customer base includes refrigeration and air conditioning contractors; refrigeration wholesale distributors, demolition contractors, DOD, landfill administrators and in house service departments for companies like Raytheon, Wrigley Mfg., Kmart and General Dynamics. They provide job-site refrigerant recovery, refrigerant removal from recovery cylinders, refrigerant disposal and documentation services. Rapid Recovery can be contacted by phone toll free at 877.372.7732, by email at [info@raprec.com](mailto:info@raprec.com) or via their web site at [www.raprec.com](http://www.raprec.com).
